#### The Practice Was Brought From England

#### Warning Out

- Replaced an earlier practice of applying for admission to a town. Required a vote of current inhabitants or the Board of Selectmen.
  - Entering as an inhabitant
  - To purchase property
- As cities grew, it became harder to enforce.
  - Had to make a distinction between residency and inhabitancy.
  - Residents who were not admitted to inhabitancy could be warned out.
  - Town is spared from having to care for them in case of poverty.
  - Towns were small, so even a few applicants could overwhelm the budget.
- Time limit – if they hadn't been warned, they would automatically become an inhabitant.
- To pressure "outsiders" to settle elsewhere. Notice ordered by the Board of Selectmen of a town, served by the constable upon any newcomer who might become a town charge. Not necessarily forcibly removed.
- Frequent requests for aid could result in being sent to the poor farm.
  - Expected to work to support themselves, handicapped, and elder residents.
- Served as a registration system for those on the move.
  - Allowed labor to come into areas such as a port town, but prevented the town from having to pay for relief if the transients needed help and commodities.
- Many New England towns hold these records.

- Can provide information on ages, hometowns, children’s names, and places of origin for the family.

**Where Do You Find Poverty Records?**

**Was It Legal?**

**Are the Records Useful?**

<ul style="list-style-type: none"> <li>• Towns felt they had the right to “warn out” transients based on the theory of common law duty to care for inhabitants who couldn’t support themselves.</li> <li>• In accordance with the law, residents couldn’t sell their homes and property to strangers without town permission.</li> <li>• Sometimes there was no reason given.</li> <li>• Town warnings can be found as early as mid-1700s – 1818.</li> <li>• Originals kept by the town clerk of each town.</li> </ul>	<ul style="list-style-type: none"> <li>• The practice, and its enforcement, varied from state to state, and even within communities.. Refer to the <i>FamilySearch</i> Wiki.</li> <li>• They can be a tool for tracking movements of individuals and families, and women on the fringe of society.</li> <li>• Often mention the previous community where they resided.</li> <li>• If our ancestors were poor, and would not appear on land, tax, vital and probate records, tracking can be difficult.</li> <li>• Warning out records may helpful in piecing their lives together.</li> </ul>
